PROFILE

Finance Management student at the University of Latvia with a strong interest in financial markets, data analytics, and the application of technology in finance. Responsible, precise, and analytical, with solid skills in data processing, problem-solving, and teamwork. Actively developing competences in Python programming, machine learning and artificial intelligence applications, as well as web development. Seeking opportunities to participate in projects or internships in finance, investments, or data analytics to apply my knowledge and grow professionally.

WORK EXPERIENCE

01.2018 – present

Latvian Volleyball Federation – Volleyball Referee

Main tasks: officiating matches, making quick decisions, and ensuring accurate completion of match protocols.

01.2025

SIA “Kreiss” – Internship (Financial Management and Tax Administration)

Assisted in the compilation of financial data and familiarized myself with tax calculation and declaration processes.

12.2024

SIA “Kreiss” – Internship (Financial Accounting)

Gained insight into the company’s financial accounting processes and documentation workflow.

EDUCATION

09.2022 – present

University of Latvia
